Thembane Chemicals (Pty) Ltd

*Supplier of laboratory
chemicals and consumables*

Thembane Chemicals was established at the end of 2013 and has been operating successfully for the past 4 years. A gap in the market for the supply of laboratory chemicals and consumables for small to medium enterprises was identified as an opportunity for Thembane Chemicals.

In these 4 years we have grown to now supply laboratory chemicals to a variety of organisations in the chemical, medical, food, steel, water, mining and education industries, amongst others.

Our products include deionised water, reagents, spectroscopy standards, chromatography solvents (GC and HPLC), purity grades (AAR, CP), and certificates of analysis, MSDS and more.

Thembane means “**trust**” (Zulu meaning) and we endeavour to build long lasting, relationships with all our clients based on the values of trust, integrity and value for money.

Strategy

A Vision statement

To be the preferred African supplier of superior quality laboratory products and consumables for small to medium markets.

B Mission statement

Our staff are committed to exceeding customer expectations through personalised service offerings, and dedicated efforts to source best quality products at the best prices.

C Values

- Integrity
- Trust
- Understanding
- Quality
- Value for money

Products

Our products include deionized water, reagents, spectroscopy standards, chromatography solvents (GC and HPLC), purity grades (AAR, CP), and certificates of analysis, MSDS, outsourced laboratory chemicals and Sigma chemicals. All our products are labelled with internationally recognized product, chemical, lot and hazardous information.

Our chemicals are available in various grades, and are supplied in a range of volumes and weights, to suit customer expectations.

Although primarily a provider of laboratory chemicals, we also supply consumables, cleaning equipment, glassware and other laboratory and non-laboratory items – making us uniquely placed to satisfy a variety of requirements.

Why Thembane?

- Quality products, competitive prices and personalised service - forging long-term relationships with our clients
- Women Owned - Level 2 BBBEE contributor
- Proud member of PURCO (Purchasing Consortium Southern Africa)
- Ability to make absorption and spectroscopy standards up to client's specifications sets us apart in our industry.

Our chemicals are available in various grades, and are supplied in a range of volumes and weights, to suit customer expectations.

We Supply:

- **Laboratory Chemicals & Consumables**

- **Volumetric Solutions**

- **Buffer Solutions**

- **Cleaning Products**

- **Deionised Water**
